

THE LAKE AND PENINSULA SCHOOL DISTRICT

## COVID-19: What You Need to Know GENERAL RECOMMENDATIONS

Below are recommendations we strongly advise all residents within the Lake and Peninsula Borough to follow to help minimize the risk of COVID-19 and allow schools to stay open.....

- Wash your hands regularly
- Wear a mask when around others
- Stay at least 6 feet away from others when possible
- Keep your social interactions and keep social circles small when possible.
- Even for mild symptoms get tested.

PLEASE – Even if you have mild COVID-19 related symptoms, please stay home and seek medical attention which might include testing.

At this time, when schools are in the Green (Low Risk), the Lake and Peninsula School District does not mandate the general use of masks, but does encourage all of us to do our part to limit the spread of COVID-19.

Masks will be required for Kitchen Staff, Staff performing morning screening, and District Travel.

LPSD's perspective is to work from CDC recommendations.

The District will comply with all village mandates.

Individual communities do have the ability to strengthen the requirements/recommendations. It shall be the responsibility of the Village COVID Advisory Committee to provide any additional requirements in writing to the district for their review.

Should a situation arise where a community is designated Yellow (Medium Risk) or Red (High Risk), requirements shall be provided by the District COVID Task Force. LPSD and the District COVID Task Force will always consider CDC recommendations and guidance.

School designations as to whether a school is in the Green, Yellow, or Red zone shall be made by the District COVID Task Force after gathering data from village leaders, village clinics, school principals, and regional health professionals.

August 24, 2020

Current operations, policies, and procedures in regards to COVID issues will be reviewed on an ongoing basis.
